

National requirements

➔ Background Information

Some countries of the Alpine Space Programme set up national requirements as regards the application procedure and ask for additional documents to be submitted within the first or/and the second step of application. These documents are ready for download on the programme website (in the section of the relevant call) and have to be submitted to the relevant ACPs.

➔ Guidance

Austria

First step

Information on national requirements will be sent via email directly to the project partners after submission of the Expression of Interest

Second step
